“I couldn’t believe what I saw, I heard, I couldn’t get it off my mind...  
I couldn’t digest it, I was so scared, I felt attacked, stabbed in the back”

## BODY BLISS

Two phases of Healing

- a. Conflict Active (not many symptoms here)
  - i. Cold hands
  - ii. Can't sleep at night
  - iii. Racing thought about the conflict
  - iv. Usually no bodily symptoms with a couple exceptions
- b. Healing Phase A (brain scan shows dark hypo dense)

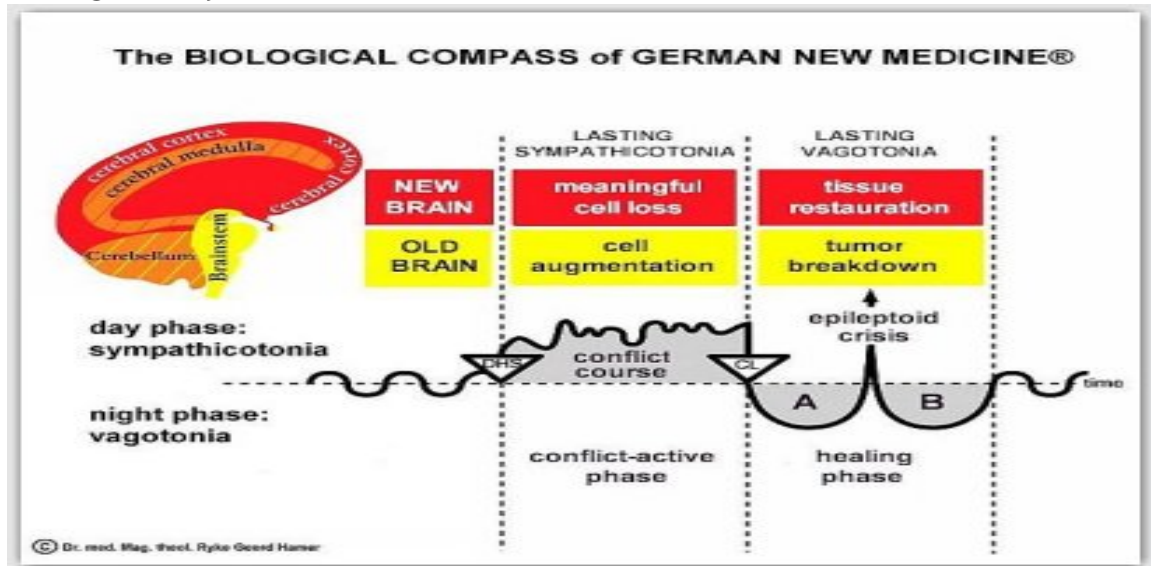

- c. Epi-crisis→Peak of healing=peak of pain, inflammation, seizures, heart/asthma attacks) **MOST SYMPTOMS SHOW UP HERE!**
- d. Healing Phase B- rest and rebuild -> you are tired!!!

This is what the brain scan looks like during Healing Phases A-Epicrisis & healing phase B. Any of these could be called "Brain Cancer!"

### 2. Ontogenic System of SBS. endoderm-mesoderm-ectoderm

3. Ontogenic System of Microbes (our healthy friends!) Don't kill the Bacterias/virus/fungi→they are doing a job...they are not dangerous "infections!" They are our surgeons!
4. Every so-called disease is part of a Significant Biological Special Program of Nature...It is our Evolutionary survival plan! ALWAYS TO GET US THRU THE SHOCK AND MAKE US STRONGER!!!
